

Submission Requirements

A zip folder titled with the entrant's name in the "SURNAME, FORENAME" format containing:

1. Minimum of 6 and a maximum of 10 jpeg images. You may wish to show us:
 - a. Sketches, CAD images, renderings and/or pictures of your finished product.
 - b. Demonstrate the function of your product by including images of prototypes you have made and any testing you have done.
 - c. These should be no less than 1MB file size each.
2. A concise 500 word description of your design in .pdf or MS word format. Tell us:
 - a. What you have designed, what the function is and why it is brilliant.
 - b. Where did you get your inspiration from? How did you think of the idea?
 - c. What development process did you take?
 - d. How does it answer the brief?
3. **(Optional)** 2 minute video (formatted to play in VLC media player)
 - a. Use this to show us the development process you took, and videos showing your prototypes and finished product in use.
 - b. Don't be shy - we're not expecting BAFTA winning performances, and you will not be judged on your film-making ability, this is just an opportunity to let you show us your product in a way that suits you.
 - c. Voice overs are fine. If a picture paints a thousand words, how good is a video?
